

## Concentrated Cleaner

- One ounce makes a gallon of powerful all-purpose cleaning solution
- Cleans anything washable
- Saves money
- Biodegradable...will not contaminate or pollute water resources
- Contains preservative

### Holds U.S.D.A. "A1" AND "E1" Ratings

SWEPACO Concentrated Cleaner is a special application cleaner and general purpose cleaner in one. It holds United States Department of Agriculture "A1" and "E1" ratings for general cleaning and hand cleaning in establishments operating under the USDA meat, poultry, shell egg grading and egg products inspection programs. And yet Concentrated Cleaner is versatile enough for virtually any clean-up task!

SWEPACO Concentrated Cleaner transforms ordinary water into a tremendously effective cleaning solution that removes dirt, grease and grime in seconds. Simply add to water, it cleans everything. Perfect for woodwork, concrete, metal machinery, vehicles and a "thousand and one" other uses indoors and outdoors. It's proven safe for any surface not harmed by water.

### One gallon makes 128 gallons of powerful, all-purpose cleaner

And Concentrated Cleaner is just as economical as it is versatile. One-

**Concentrated Cleaner's powerful cleaning action makes short work of tough jobs, even in USDA regulated food processing facilities.**

ounce of this concentrated, but gentle, cleaner transforms a gallon of water into a property owner's dream. One gallon of Concentrated Cleaner makes 128 gallons of all purpose cleaning solution. Now that's economy. No need to bother with several special purpose cleaners. Concentrated Cleaner removes old floor wax just as efficiently as it cleans woodwork. And, by adding it to kerosene or gasoline instead of water, it becomes the perfect answer to cleaning up greasy engines, equipment or garage floors.

### 7.2 to 7.8 "PH" means gentle but powerful cleaning action

Concentrated Cleaner is a powerful non-abrasive cleaner. It has a "PH" value of 7.2 to 7.8, one of the lowest "PH" values in the cleaning field. It will not harm the luster of metal, plastic, glass or wood surfaces. It contains hard working phosphates that get at oil,

PERFORMANCE

dirt, and grim, breaking it free, so it can be rinsed away for a clean, bright, scum-free surface. Dirt and other foreign matter is kept in suspension so it can be rinsed away without unattractive spotting, streaking or filming. And Concentrated Cleaner is formulated with a special additive that makes it equally as effective in hard water as in soft water.

### **Just mix & use; saves valuable time**

Just add hot or cold water and it's ready for action. No need for special mixing equipment. It's easily applied with mop, cloth, brush or spray, making it compatible with any type of cleaning operation. This means simplicity and efficiency which saves time and money in your cleaning operations. The cleaning job determines how much cleaner is added to water. Written instructions tell you the exact mixture you'll need for most normal cleaning jobs.

### **Preserved biodegradability means long storage life**

And, yes, SWEPCO Concentrated Cleaner is biodegradable. It will not harm nature's balance by contaminating or polluting streams or lakes or threatening wildlife. But SWEPCO goes even further to give you the dependable cleaning power you need when you need it. Most cleaners today are biodegradable ... but what they don't tell you is that because they are biodegradable they are susceptible to aging. To be biodegradable a cleaner must be basically organic. And, if a cleaner is organic, it can break down, deteriorate, or go "stale" before you use it. That's an especially important problem when you're considering concentrated cleaners that are stocked for their economy. But SWEPCO adds a special preservative to Concentrated Cleaner that keeps it strong and

powerful in the container until you're ready to use it. That way, you can be sure when you do need Concentrated Cleaner, it's just as fresh and ready to get those cleaning jobs done as the day you bought it.

### **Costs less & cleans better**

Specify SWEPCO Concentrated Cleaner on your next cleaner order. You'll be glad you did ... because at pennies per gallon it's one of the most economical, versatile and powerful cleaners on the market. Most of all, it will save you time and money in your company's cleaning operations. Whether you're using a steam cleaner, spray equipment or other cleaning techniques, SWEPCO Concentrated Cleaner is an economical answer to your cleaning needs.

### **Exceeds US Specifications**

SWEPCO Concentrated Cleaner surpasses U.S. Federal Specification P-D-220a, Type II, Class 1. This specification applies to General Purpose Detergents as defined by the US Government. It also has USDA "A1" and "E1" ratings.

### **Application**

SWEPCO Concentrated Cleaner is quick and easy to use. Just add to hot or cold water. No special mixing equipment needed. Effortless cleaning is achieved by using a mop, sponge, cloth, brush, dip bath and spray. For most cleaning, only one ounce (29.57 ml) is needed to a full gallon (3.79 liters) of water. Add slightly more for heavily soiled surfaces, according to recommendations printed on the container.

**Note:** See Product Container Label or Product Data Bulletin for complete application information.
